My Photo Album

Turn your digital photos into family entertainment

Don't let your digital photos and video clips sit unseen and ignored on your computer.
In just minutes, turn them into entertaining, interactive slideshows that you can burn on a CD or DVD disc and watch on TV.
Organize & retouch

- **Transfer photos and video clips from digital cameras, scanners and other sources**
- **Organize photos into handy albums**
- **Adjust picture quality**
- **Remove red eye automatically**

Create personalized slide shows

- **Select from ready-to-use slide show styles**
- **Impress your audience with transitions and special effects**
- **Produce DVD-quality slide shows on a CD**
- **Automatically create or customize disc labels**

Share a truly multimedia experience

- **Include digital photos AND video clips**
- **Add MP3 soundtracks to your slide show and audio to menus**
- **Automatically set slide shows to the beat of the soundtrack**
- **Watch slide shows on a TV or computer**

SOFTWARE SPECIFICATIONS:

Input formats:
- **Twain or WAI digital camera or scanner**
